EDUCATION

BCA - Bachelor in Computer Application
Pune University
2019 - 2022,   *8.52 CGPA*

HSC – Science
Maharashtra State Board
2016 - 2018,   *61.52 Percentage*

SSC
Maharashtra State Board
2016,   *78.20 Percentage*

PROJECTS

Grocery Shop | MERN Stack Based
- A grocery shop is an online grocery selling platform built using MERN technology.
- Applications have multiple features like login/sign in, forgot password, update password, reviews, product lists, filter product, order summary, cart items, order details, search products
- Check Live - https://grocery-shop-ten.vercel.app/

Crypto Tracker | React Based
- Crypto tracker is a real-time cryptocurrency tracker application built using React.
- Applications have multiple features like graphical views of data, global crypto stats, and displaying lists of the top hundred cryptos in the market. Search cryptocurrency, crypto news, crypto details, change data by time period, toggle theme
- Check Live - https://cryptoapp-pradipkhamkar.vercel.app/

Price Tracker | React + Node Based
- Developed a web application using React and Node that allows users to track the prices of products on e-commerce websites such as Flipkart and Amazon
- Leveraged web scraping techniques to extract relevant product data and display it to the user in a clear and concise manner

SKILLS

Programming Languages: JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js

Databases: MongoDB

Tools: Git, VS Code, Postman

TRAINING

MERN Stack – 3RI Technologies [6 Months]
- Completed a comprehensive training program on the MERN MongoDB, Express, React, Node.js) stack, covering all aspects of full-stack web application development.
- Gained practical experience in building a range of web applications using the MERN stack, including e-commerce platforms
- Developed strong skills in database modeling and schema design with MongoDB, and gained experience building Rest API with Node.js and Express.
- Learned how to build dynamic, responsive user interfaces with React, using reusable components to create complex and interactive front-end experiences.
- Gained experience with integrating third-party APIs and services, and learned how to use Git for version control and collaboration.

VOLUNTARY WORK

Youtube Channel [Student Corner]
- Developed and produced educational updates for a YouTube channel with 4k subscribers, focused on providing the latest information for students preparing for exams like JEE and CET
- Conducted extensive research to ensure accurate and relevant content, and communicated complex topics in an easily understandable manner
- Utilized strong teaching ability to provide students with effective strategies and tips to succeed on their exams

ACHIEVEMENTS

Captain, College Cricket Team (Intercollege Tournament Champions)
Led the team to victory in the intercollege cricket tournament, working closely with coaches and teammates to develop effective strategies and motivate players to perform at their best.
